COORDINATION CHEMISTRY REVIEWS

COORDINATION CHEMISTRY REVIEWS, VOL. 151 (1996)

AUTHOR INDEX

Bauchspiess, K.R., 125
Berners-Price, S.J., 1
Bertini, I., 145
Betteridge, S., 125

Chan, P., 125
Cremonini, M.A., 145

Dickson, D.P.E., 125

Ferretti, S., 145

Gielen, M., 41

Hill, H.A.O., 115

Li, R., 53
Lozzi, I., 145
Luchinat, C., 145
Lu, J., 53

St. Pierre, T.G., 125

Sadler, P.J., 1
Sargeson, A.M., 89

Viezzoli, M.S., 145

Walton, S., 125
Wang, K., 53
Webb, J., 125
Williams, D.R., 161

SUBJECT INDEX

Anticancer complexes
The events that occur when cisplatin encounters cells 53
Antitumour drug
Tin-based antitumour drugs 41

Bioelectrochemistry
The development of bioelectrochemistry 115
Biological speciation
Coordination chemistry of metallodrugs: insights into biological speciation from NMR spectroscopy 1
Biomineralization
Synthesis, structure and magnetic properties of ferritin cores with varying composition and degrees of structural order: models for iron oxide deposits in iron-overload diseases 125

Cage complex
The potential for the cage complexes in biology 89
Cage polymer
The potential for the cage complexes in biology 89
Cage surfactant
The potential for the cage complexes in biology 89
Carcinoma
Tin-based antitumour drugs 41
Cellular response
The events that occur when cisplatin encounters cells 53
Cisplatin
The events that occur when cisplatin encounters cells 53

Decontamination
Wounds: decontamination and healing 161
Detergent
The potential for the cage complexes in biology 89
Dioxygenation
Arene hydroxylases: metalloenzymes catalysing dioxygenation of aromatic compounds 145

EXAFS
Synthesis, structure and magnetic properties

of ferritin cores with varying composition and degrees of structural order: models for iron oxide deposits in iron-overload diseases 125

Ferritin
Synthesis, structure and magnetic properties of ferritin cores with varying composition and degrees of structural order: models for iron oxide deposits in iron-overload diseases 125

Healing
Wounds: decontamination and healing 161
Hydroxylating enzymes
Arene hydroxylases: metalloenzymes catalysing dioxygenation of aromatic compounds 145

Marketing
The development of bioelectrochemistry 115
Metallodrug
Coordination chemistry of metallodrugs: insights into biological speciation from NMR spectroscopy 1

Metalloenzymes
Arene hydroxylases: metalloenzymes catalysing dioxygenation of aromatic compounds 145
Metals
Wounds: decontamination and healing 161
Mössbauer spectroscopy
Synthesis, structure and magnetic properties of ferritin cores with varying composition and degrees of structural order: models for iron oxide deposits in iron-overload diseases 125

NMR
Coordination chemistry of metallodrugs: insights into biological speciation from NMR spectroscopy 1

Organotin compound
Tin-based antitumour drugs 41

Tin compound
Tin-based antitumour drugs 41

Wounds
Wounds: decontamination and healing 161
